## Chocolate for healthy blood pressure

Compared to conventional products, ACTICOA™ chocolate and cocoa powder contain three times the amount of cocoa flavanols, which can help to maintain healthy blood pressure without compromising the taste of the chocolate. Several products have already been presented that contain ACTICOA™.

Barry Callebaut Belgium N.V.  
Lebbeke  
Belgium  
Press Contact: Florian Pistone  
10.2 C/D 10/19

---

## Chocolate for healthy teeth

The exhibitor will present its latest range of innovative chocolate specialities that are in line with the rapidly growing trend of health-conscious nutrition. Among these innovations is a teeth-friendly chocolate, which is the only product of its kind to receive a "Happy Tooth" quality rating by the Toothfriendly International Organization. Also to be presented are chocolate and cocoa products that contain probiotics and are high in fibre, as well as having reduced fat and sugar content.

Barry Callebaut Belgium N.V.  
Lebbeke  
Belgium  
Press Contact: Florian Pistone  
10.2 C/D 10/19

---

## Chocolate for connoisseurs

Created for true connoisseurs, these chocolate specialities have been selected according to cultivation areas. The dark chocolates stand out by virtue of their unique quality and exquisitely pure taste. White chocolates with real fruits are also available.

## Cake in a glass and exclusive spreads

The exhibitor will present fine cake in a glass with their innovative creation – Lapp & Fao Topsy Muncher. It is made with Grand Cru chocolate coating 64% produced from Madagascan cocoa beans and is flambéed with 12 year old Chivas Regal whisky. The Lapp & Fao Olivia at Night is an exclusive chocolate spread for bread. This spread is produced by enriching exquisite plain chocolate 72% made from Ghanaian cocoa beans with caramelised olives, ten year old Taylor's port wine and the finest Tahitian vanilla and cinnamon. The Lapp & Fao Gretel's Forest jam offers a full fruity flavour with an exquisite combination of blueberries with finest Tahitian vanilla and ten year old Taylor's port wine.

## Asparagus pastries and hemp-chocolate

Sabletaler with asparagus-canache offers a very special taste sensation: for the filling a blend of fresh creamed asparagus soup is enriched with nougat, marzipan and chocolate.

The crunchy hemp-chocolate also promises exclusive enjoyment: high quality dark chocolate with roasted hemp in a creamy nougat filling.

## Prestige Tentation Noire pralines

FREY Prestige Tentation Noire is the name of a new praline creation for the international market. A dark truffle filling enriched with cream is covered by a dark chocolate coating, for which only selected Criollo and Forastera cocoa beans are used. Careful roasting and intensive conching ensure a full-flavoured taste and chocolate that gently melts on the tongue. Fine, crunchy cocoa nibs and a sprinkle of cocoa-powder give this confectionery temptation not only a desirable look, but also provide a very special taste sensation.

## Suprême Panna Cotta and Tiramisù

FREY has recognised the popularity of Tiramisù and Panna Cotta with their filled FREY Suprême Variations, presented in a high-quality carton box. The Panna Cotta is enriched with fine and fruity raspberry bits and the cream is covered with a coat of dark chocolate. The Tiramisù variety turns dessert time into a "chocolicious" experience. Staying true to the original Venetian recipe, the creation centres around a Mascarpone filling. The filling is then coated with delicious milk chocolate with a 37 per cent cocoa content that gently melts on the tongue.

4.2 M 30

---

## Suprême chocolates

The new premium varieties from the FREY Suprême brand confirm the traditional Swiss chocolate know-how: Liaison de Cacao is a composition of dark chocolate with a 50 per cent cocoa content and milk chocolate with a 34 per cent cocoa content. Its particularly chocolaty flavour is strengthened by the roasted cocoa solids. Saveur de Chili is an exquisite dark chocolate combined with the fiery heat of peperoncini. Selected cocoa beans ensure the intensive taste of the Noir variety, which contains 85 per cent cocoa and will tempt all connoisseurs of dark chocolate.

## Chocobloc – now also in orange flavour

FREY Chocobloc 100g wants to provide the trade with an exclusive alternative form, which will guarantee a very special chocolate taste experience. Packaged in a high quality carton box, this chocolate variety has only been available until now in the traditional lait, noir and blanc flavours. The Chocobloc Orange is completely new and distinct from similar products currently on the market that combine a fine and fruity orange flavour with dark chocolate: this new creation combines orange and milk chocolate. The natural orange powder is mixed directly in with the milk chocolate (34 per cent cocoa content), ensuring a full and fruity taste. This chocolate composition also contains the traditional Chocobloc almond and honey toronno ingredients.

## Waffles, mini toast and colourful sugar sprinkles

The new hazelnut wedges are made of crunchy waffles sprinkled with hazelnuts, with a delicate 25 per cent cocoa cream filling, which is covered with a layer of fine 53 per cent whole milk chocolate. A new line of small and crunchy rusks will be presented called Mini Toast Olive and Mini Toast Sesame. Topped with olive bits or sprinkled with sesame, these rusks can be enjoyed as they are or combined with a topping of your choice. The different types of colourful sugar sprinkles come in small portioned packs and are ideal for snacking, baking or as a topping for bread.

## Mostschokolade (apple wine chocolate)

Mostschokolade is the latest innovation from this specialist in chocolate production and freeze-drying: the water and alcohol is extracted from the freeze-dried apple wine. The solids remain, as does the unadulterated flavour of must, which is strongly intensified by the process. This concentrate forms the basis of the Mostschokolade. Currently there are two flavours available: dark Mostschokolade with four per cent freeze-dried apple wine concentrate and three per cent freeze-dried plums, as well as white Mostschokolade with three per cent apple wine concentrate and ten per cent freeze-dried apples.

## Typical of Crete: baked specialities with olive oil

Native extra virgin olive oil, the elixir of life for the Greek island of Crete, is now also being used to create the island's traditional baked goods. The combination of sesame and other delicious ingredients make Crete's traditional specialities baked with olive oil just as appetising as the creations using whole pieces of freshly roasted almonds, mixed with the extra virgin olive oil and enriched with Tsikoudia. The sweet juice from Cretan sun-ripened mandarins is mixed with native olive oil from Sitia and other quality ingredients to produce a baked speciality which will bring the unique flavours of the south to your taste-buds.

## Cocoa with violets and roses

These cocoa specialities are distinctive by virtue of their quality, creativity and extravagance: this Munich-based manufacturer will welcome spring 2009 with two new flowery variations. "My heart asks pleasure" combines South American Criollo cocoa with violet essences and "Monk's Desire" combines white cocoa with rose petals.

## 70 per cent and 100 per cent: raw chocolate from Ecuador

The raw chocolate with 70 per cent cocoa content provides a mixture of finest Ecuadorian cocoa and subtle flavourings, which range from light citrus flavours to strong cocoa tones with traces of Jasmine and nuts. In addition, a chocolate will be introduced with a 100 per cent cocoa content plus traces of fruits and spices. This guarantees a perfect balance of flavours between the slightly sour and slightly bitter unsweetened cocoa. All of the raw chocolate's ingredients are carefully prepared and stored at a low temperature to preserve the antioxidants and the various flavour characteristics of the natural cocoa.

## From tennis balls to party bags

Sanchez Cano presents a broad spectrum of confectionary products. Bubblegum is now also available in the form of tennis balls, footballs, basketballs and rugby balls. The segment is complemented with heart-shaped lollipops with a bubblegum flavour. Big-format Mambo bars and bright and prickly rainbow-sticks are new in the liquorice segment. Other innovations: Pitufinis (pectin-filled jellies covered in hundreds of thousands), Chocolate Volcanoes (chocolate filled marshmallows) and Extra Sour Strips (individually packaged sour chewing belts). The Happy Party Mix Bag contains fruit gums, bubblegum, liquorice and bonbons.

## Chocolate with smoked figs

Cuorenero Smoked Chocolate is not an everyday product: smoked figs are combined with dark South American chocolate (70 per cent cocoa) to create an extravagant gourmet treat. The result is a unique harmonious mix of bitter cocoa flavours, sweet ripe figs and aromatic smoke. They are also available enriched with fine old spirits. If you want to go a step further in the direction of new flavours, try serving the chocolate with ricotta or goat's cheese.

## Drinking chocolate: stirred with cinnamon

Cuorenero Cup of Chocolate will surprise fans of fine drinking chocolate with the addition of cinnamon sticks from Madagascar. If you use it to stir the drinking chocolate, additional aromas are released and lend completely new flavours to the chocolate. The packaging is just as exclusive as the product: elegant colour combinations provide a decorative frame for the unconventionally formed window, through which the cinnamon sticks are seen at first glance.

## Design & fair trade: Mitzi Blue by Zotter

Mitzi Blue is the name of the new chocolate brand, which promises to be a “chocolaty stroke of genius” – and not just because of its unusual design. Its appearance isn't the only thing that will attract your attention: chocolate lovers can choose from ten fine varieties. All the ingredients are produced using monitored, organic cultivation and are fair trade.

## Pharmacy chocolate

Stollwerck is offering Pharmacy chocolate — a chocolate that is exclusively available in pharmacies and provides added benefits for the consumer's well-being. The high quality chocolate contains an above-average amount of natural antioxidants from the cocoa bean. Thanks to the ACTICOA™ method that Stollwerck developed, it is now possible to preserve the maximum amount of these valuable ingredients, which naturally occur in coco beans. Pharmacy customers who enjoy tasty treats have a choice between milk chocolate and dark chocolate. Both chocolate variations are available as bars with individually packed portion-bars and as so-called callets in a convenient dispenser.

Stollwerck GmbH  
Cologne  
Germany

Press contact: Dagmar Seyfert and Jan Zuther  
2.2 E 31/F 38

## Dark and healthy

Consistently high cocoa content in all varieties brings special benefits in terms of natural antioxidants. That's why the premium bars are especially intense in taste and also, when enjoyed in moderation, good for the health. Available in six tasty varieties.
